Unisem Receives Supplier Excellence Award from Mindspeed Technologies, Inc.

Kuala Lumpur, 8 February, 2010 – Unisem recently received the Supplier Excellence Award from Mindspeed Technologies. The award recognizes Unisem for having no customer returns or issues for all die sales since Unisem was released to production. Unisem's Alice Rani, Michelle Kastiru and Rino de Leon were noted in particular for their outstanding support. This award was presented by Mindspeed's Jim Cao (VP of Operations) and Laith Jony (Sr. Manager for Test Engineering / Operations) to C.H. Ang and C.S. Ho.

Headquartered in Newport Beach, Calif., Mindspeed Technologies, Inc. designs, develops and sells semiconductor networking solutions for communications applications in enterprise, access, metropolitan and wide area networks.

Mindspeed's products are used in a wide variety of network infrastructure equipment including voice and media gateways, high-speed routers, switches, access multiplexers, cross-connect systems, add-drop multiplexers and digital loop carrier equipment.
