

News Release

Unisem (M) Berhad ("Unisem") received Supplier of the Year Award from WJ Communications Inc.

Kuala Lumpur, 3 March, 2008 – Unisem received an award "In Appreciation & Recognition of Outstanding Engineering and Production Support for Q1'08" from its valued customer WJ Communications Inc. ("WJ"). WJ is a leading supplier of radio frequency (RF) solutions for wireless infrastructure. WJ acquired by TriQuint Semiconductor, Inc ("TriQuint") and is now part of TriQuint's Network Products group. TriQuint is a leading RF front-end product manufacturer and foundry services provider. This award recognizes outstanding engineering and production support for the first quarter of 2008.

Presenting the award to Unisem was Mr Nadarajah Tinakararajan, Director of SubCon Operation of WJ, "We appreciate the support given by the Unisem's Engineering and Production team which helped WJ to win a larger market share and one of the highest potential packages this year," said Mr Nadarajah Tinakararajan.

Receiving the award, Unisem's Group Chief Operating Officer, Mr CH Ang commented, "Unisem is thrilled to receive this award and looks forward to furthering our partnership".

About TriQuint www.triquint.com

Founded in 1985, we "Connect the Digital World to the Global Network"™ by supplying high-performance RF modules, components and foundry services to the world's leading communications companies. Specifically, TriQuint supplies products to four out of the top five cellular handset manufacturers, and is a leading gallium arsenide (GaAs) supplier to major defense and space contractors. TriQuint creates standard and custom products using advanced processes that include gallium arsenide, surface acoustic wave (SAW) and bulk acoustic wave (BAW) technologies to serve diverse markets including wireless handsets, base stations, broadband communications and military. TriQuint is also lead researcher in a 3-year DARPA program to develop advanced gallium nitride (GaN) amplifiers. TriQuint, as named by Strategy Analytics in August 2008, is the number-three worldwide leader in GaAs devices and the world's largest commercial GaAs foundry. TriQuint has ISO9001 certified manufacturing facilities in Oregon, Texas, and Florida and a production plant in Costa Rica; design centers are located in North America and Germany. For more information about TriQuint visit www.triquint.com.

About Unisem www.unisemgroup.com

Unisem is a global provider of semiconductor assembly and test services for many of the world's most successful electronics companies. Unisem offers an integrated suite of packaging and test services such as wafer bumping, wafer probing, wafer grinding, a wide range of leadframe and substrate IC packaging, wafer level CSP and RF, analog, digital and mixed-signal test services. Our turnkey services include design, assembly, test, failure analysis, and electrical and thermal characterization. With approximately 9,500 employees worldwide, Unisem has factory locations in Ipoh, Malaysia; Wales,
