

QRA MANAGER

We are looking for a QRA Manager who will be responsible for leading the company's quality function, ensuring compliance with product specifications, customer standards, and regulatory requirements, while driving continuous improvement and reliability across processes.

Responsibilities:

- **Quality Oversight:** Responsible for the full spectrum of day-to-day QRA functions, ensuring products meet specifications and customer standards.
- **Team Leadership:** Lead and guide QRA personnel, fostering a culture of continuous improvement and accountability.
- **Compliance Management:** Ensure compliance with internal policies, industry regulations, and external customer requirements.
- **Customer Liaison:** Act as the main contact for quality-related matters, handling customer complaints and building trust.
- **Performance Monitoring:** Track and meet internal and external quality KPIs, ensuring measurable improvements.
- **Problem Solving:** Apply strong analytical skills to identify root causes of quality issues and implement corrective actions.
- **Continuous Improvement:** Drive initiatives to enhance product reliability, reduce defects, and improve processes.
- **Documentation & Reporting:** Maintain accurate records of quality audits, inspections, and corrective actions for transparency and accountability

Requirement:

- Degree in Engineering or related
- Minimum 8 years in semiconductor industry with relevant QS/QE or familiar with 8D/ISO/IATF/VDA 6.3 process
- Strong knowledge of Quality Management Systems (QMS)
- Analytical and problem-solving ability
- Leadership and interpersonal skills
- Excellent communication in English and local languages
