B1. Detailed analysis of the performance of all operating segments of the Group, setting out material factors affecting the earnings and /or revenue of each segment for the current quarter and financial year to date

The Group recorded revenue of RM282.952 million for the quarter ended 30 September 2012, a marginal decrease of 2% as compared to the corresponding quarter last year, with a 43% increase in revenue in the USA segment, 1% and 57% decline in the Asia and Europe segments respectively. The Group recorded a profit of RM8.330 million, a significant increase of 70% as compared to the profit of RM4.890 million in corresponding quarter last year. The Asia segment recorded profit whilst both Europe and USA segments recorded losses for the quarter under review.

For the nine months period ended 30 September 2012, the Group's revenue at RM822.508 million was 7% lower as compared to the corresponding nine months ended 30 September 2011, with a decline in revenue in the Asia and Europe segments of 7% and 42% respectively whilst the USA segment recorded an increase in revenue of 9%. The Group recorded a loss of RM13.118 million as opposed to the profit of RM22.229 million recorded in the same period last year. All segments recorded losses for the nine months period under review.

QUARTERLY REPORT ON CONSOLIDATED RESULTS FOR THE THIRD FINANCIAL QUARTER ENDED 30 SEPTEMBER 2012

The corresponding quarterly and period-to-date decline in revenue of the Group was principally attributable to lower average selling prices arising from changes in product mix.

The increase in profit of the Group for the corresponding quarter was principally attributable to improved profit margin due to changes in product mix as well as higher gains on foreign exchange. The corresponding decline in profit of the Group for the nine months period was principally attributable to lower sales revenue, one-time retrenchment costs of RM5.7 million arising from an efficiency/redundancy exercise at PT Unisem, higher depreciation charges and lower foreign exchange gains.

In the corresponding quarter ended 30 September 2011, a foreign subsidiary of the Company was granted subsidies of RM10.4 million by the local authorities.

B2. Explanatory comment on any material change in the profit before taxation for the quarter reported on as compared with the immediate preceding quarter

The Group achieved profit before taxation of RM9.086 million for the current quarter as compared to the loss before tax of RM8.242 million in the preceding quarter ended 30 June 2012. The improved performance of the Group was mainly attributable to increased profit margin, lower operating expenses, higher foreign exchange gains and lower depreciation charges.

B3. Commentary on the prospects, including the factors that are likely to influence the Group's prospects for the remaining period to the end of the financial year or the next financial year if the reporting period is the last quarter

The operating environment remains challenging due to the prevailing global economic conditions. As we approach the financial year end we also expect a subdued fourth quarter due to seasonal inventory adjustments.

The implementation of our new business model (essentially rationalising our package portfolio and customer profile) is in progress and we expect it to yield favourable results in the coming quarters.

- B4. Where the audit report of the company's preceding annual financial statements was qualified, disclosure of the qualification and current status of the matter(s) giving rise to the qualification for the current quarter and financial year to date
 - The preceding annual financial statements of the Group were reported without any audit qualification.
- B5. A statement of the board of directors' opinion as to whether the revenue or profit estimate, forecast, projection or internal targets in the remaining period to the end of the financial year and the forecast period which was previously announced or disclosed in a public document are likely to be achieved

The basic earnings per share for the current quarter of 1.23 sen was calculated by dividing the Group's profit attributable to equity holders of the Company of RM8.306 million and the basic loss per share for the financial year to date of 1.90 sen was calculated by dividing the Group's loss attributable to equity holders of the Company of RM12.805 million by the weighted average number of ordinary shares in issue of 674,229,634.

The diluted earnings/(loss) per share has not been presented as the average fair value of the shares of the Company which is lower than the exercise price for the conversion of the Warrants or ESOS to ordinary shares. The effect would be anti-dilutive to the earnings/(loss) per share.
