

News Release

Unisem Reports Revenue of RM303.1 million (approx. US\$74.1 million) and Net Profit of RM6.0 million (approx. US\$1.5 million) for First Quarter 2019

Kuala Lumpur, 25 April 2019 – Unisem (M) Berhad today announced results for the first quarter ended 31 March 2019 (**1Q19**).

Unisem recorded a consolidated revenue of RM303.130 million (approx. US\$74.1 million) and net profit of RM6.046 million (approx. US\$1.5 million) for 1Q19, representing decline of 5.7 percent and 4.4 percent respectively against the corresponding quarter ended 31 March 2018 (**1Q18**).

The decrease in revenue and net profit was mainly attributable to the decline in sales volume and lower profit margins arising from change in product mix.

Group's earnings before interest, tax, depreciation and amortization (EBITDA) for 1Q19 came in at about RM48.574 million (approx. US\$11.9 million), EBITDA margin was about 16.0 percent. Equipment capacity utilization averaged at about 58.0 percent for the Group in 1Q19. Group's capital expenditure incurred in 1Q19 was about RM71.9 million (approx. US\$17.5 million), principally for purchase of equipment for wafer bumping activities.

Commenting on the outlook of the Group, Mr. John Chia Sin Tet, the group managing director said, "We expect the performance of the Group to improve for the second financial quarter and remain satisfactory till the end of the financial year."

About Unisem

Unisem is a global provider of semiconductor assembly and test (OSAT) services for many of the world's most successful electronics companies. We offer an integrated suite of packaging and test services such as wafer bumping, wafer probing, wafer grinding; a wide range of leadframe and substrate IC packaging; wafer level CSP; and RF, analog, digital, and mixed signal test. Our turnkey services include design, assembly, test, failure analysis, and electrical, mechanical, and thermal characterization and modeling. Unisem is an established MEMS OSAT with several years of experience in volume consumer and automotive production, in addition to a broad package portfolio covering multiple applications. The company has factory locations in Ipoh, Malaysia; Chengdu, People's Republic of China; and in Batam, Indonesia. Unisem is headquartered in Kuala Lumpur, Malaysia.
